

SWAGGER SUITES FOR OVERSEAS MEN

WEST END HOTEL TO HOUSE ENVOYS AT CORONATION

LONDON, March 4.—Several suites have been reserved at a Park Lane hotel for the accommodation of distinguished diplomatic and other guests who will be visiting London for the coronation and the empire parliament.

The empire parliamentary conference is distinct from the imperial conference. It is not a conference of the empire, at the Imperial conference, but of distinguished parliamentarians headed by a royal minister.

KING TO BE PRESENT

King George VI will be present at the official luncheon of welcome, given to delegates at Westminster hall.

The delegations from Canada are expected to be headed by a cabinet minister, and to include, amongst others, the speakers and leaders of the political parties, and a number of senators. It will be accompanied by the Canadian government clerk of the House of Commons. The premiers of Alberta, Quebec, Newfoundland, and Ontario will be amongst representatives from Canadian provincial legislatures.

FROM CAPE COLONY

The delegation from the Union of South Africa will be headed by Senator C. F. Clark, minister for native affairs, and Mr. G. B. Major, G. B. Van Zyl, deputy speaker of the house of commons; Col. W. R. Colenso, government whip; Colonel C. F. Stalard, M.P.; and Col. G. M. P. The delegation will be accompanied by Captain Maurice Green, clerk of the senate.

Quits

Senator Frank P. O'Connor has resigned his position as treasurer of the Progressive Liberal party, according to Toronto reports, though no reason was given.

GOVERNMENT OF SPANIARDS SURE TO FALL

Continued from Page One

Labour League forces are outraged that the Spanish government can possibly have the Spanish government. Conservative sentiment is strong in Spain, and the Spanish dispute, not because Fascist domination in Spain will be welcomed by the people after a Franco victory, are certain to be thoroughly sick of the Fascist regime. The League will turn to their demands again days after the coronation in May.

Topics of the day have still to be decided, but the League forces are flowing back and forth between London and the dominion suggesting that the League forces will be the only ones to be in the first rank of importance.

DEFENCE FOREMOST

Eleven years have passed since an important conference gave any definite study to the subject of defence. The war was in 1926 when Canada's chief representative was the prime minister, W. L. Mackenzie King. The resolutions of 1926 went little beyond reaffirmation of resolutions adopted by the League of Nations, and King also headed Canada's delegation at that conference.

Since then, the face of the world has changed. Any possibility of a naval race has been eliminated, and the League of Nations supplemented and extended by the treaty of Locarno, and the League of Nations has been formed.

Outside Germany, Hitler was unopposed. Allied statesmen would have smiled indulgently at the League's failure to stop Hitler, and the League's Association of Longshoremen's Association local unions were furnished to work successfully to challenge the League of Nations.

TREATIES GONE

Now, Locarno has gone; collective security under the League has gone; the naval treaties of Washington and London no longer count; and the League of Nations is gone. The world grows under the greatest race in armaments history has known in the peace.

Neville Chamberlain, Chancellor of the Exchequer, put the situation properly when he said that the British House of Commons a firm resolution for authority to raise £100,000,000 to defend loans to a total of \$200,000,000.

"No one," he said, "least of all the Chancellor of the Exchequer, can say that the League is a collection of burdens without a feeling of disgust and shame that civilians are trying to break its own back of the back of the backs of our differences by give-and-take and all that sort of thing. The pursuit which might bring great pride and contentment to all."

Montreal Woman Is Hammer Victim

MONTRAL, March 4.—Lies were crushed, Mrs. Cyrus Boucher, 42, was found dead last night in the bloodstained room of a rooming house in Montreal's east end. A red-stained hammer lay nearby.

The woman, all persons found in the house. The woman's husband could not be located immediately.

Calgary Child Dies After 35-Foot Fall

CALGARY, March 4.—In an effort to retrieve a bright Christmas stocking from a high shelf, a 10-year-old boy, three-year-old Carl Smith was fatally injured here. He died at the hospital after a fire, a fire escape, and died half-an-hour after admission to hospital. Carl was the son of Mr. and Mrs. Smith. The bracelet was a gift from their mother.

Ottawa Estimates Reach \$506,528,784

OTTAWA, March 4.—The total cost of the federal government for the fiscal year ending March 31, 1937, was \$506,528,784, indicating the administration may not bring down further estimates than \$500,000.

Montreal Faces Trial For Wife-Slaying

OTTAWA, March 4.—Walter H. Sherin, 66, poet, author and former Methodist minister, died Wednesday.

CONSTITUTIONAL STORM BREWING ON SPECIAL AREAS

LONDON, March 4.—Possibility looms of a parliamentary storm over the special areas.

A group of Conservative MPs, invited by Lord Wodehouse, who made a special study of problems centring around the distressed areas, plan to submit a number of amendments to render the bill for relief of unemployment more effective.

It is understood, however, that amendments as far as possible, the words "the King's recommendation" in the financial resolution preceding the bill, will be the only possible alteration and the resolution is understood to contain every provision which will be more effective.

Some members of parliament assert that the bill, as it stands, may lead to a costly over-parliamentary procedure. The resolution will be debated March 8.

Labor leaders are vigorous in

the resolution vigorously on

grounds the proposed measures are inadequate to cope with the situation.

OTTAWA LOANED WEST HUGE SUM

Continued from Page One

OTTAWA, March 4.—In the four fiscal years ending March 31, 1936, the dominion loaned the provinces a total of nearly \$94,000,000 to assist them in repelling difficulties, and the provinces in turn repaid a certain extent ordinary government debts.

Manitoba, 1932-33, \$5,171,905; 1933-34, \$2,273,283; 1934-35, \$2,574,631; 1935-36, \$2,574,631.

TREMBLAY TELLS HOW FARM CAN BE REDEEMED

COLONIZATION PLAN, SOIL SURVEY, HOG PRODUCTION URGED

Continued from Page One
from the throne that the government has awakened to the fact that there is an agricultural industry worth saving.

PRACTICAL NATURE

Let us hope that this reference will be of a practical nature as idle talk about the saving of the people of Alberta have heard that the present government came into power.

In fairness to the present government, it is not solely responsible for the present condition of our agriculture. It is the result of several false moves, some of which will indicate later. Our agriculture is in a bad condition, but 12 years behind the times. Although there are some very commendable efforts, our dependence on agriculture, I say there is a great lack in leadership.

I can assure you that the importance in dollars and cents of our agriculture. We will use for that purpose the 1936-37 budget as they are the most complete figures available for a full year. The total revenue from agriculture that year was \$356,711,781. The returns from agriculture alone were \$153,702,000 or 43 per cent of the total revenue.

The second highest return was obtained from manufacturing and it amounted to \$125,721,000 or 35 per cent of the total revenue. Mining came next with \$30,228,831—7.8 per cent of the total revenue. The other industries produced from 29 per cent to 1 per cent of the total revenue.

MAN INDUSTRY

That alone, it seems, should be enough to classify agriculture as one of the most important industries. To go a step further we will see in analyzing the wealth of Alberta for the year 1936-37 that the total wealth of \$2,033,578,000 agricultural figures for the amount of \$135,150,000 or 6.6 per cent.

Furthermore we must consider that approximately 65% of our people are engaged in agriculture, farm, and garden, yet what has the present government done to better this industry?

False moves made by the government included:

—Reversing 90% of the districts agriculturists who were the only source of information to many farmers.

—Dismisssing Miss Alexander, who had been appointed to organize the women's movement to assist the farm women of Alberta.

—Helping distribution throughout the province of seed grain, particularly the practice of seed grain polices.

—Withdrawing all loans for the purchase of farm equipment.

—Withdrawing back and letting things drag along, they have been for the last 15 years, and making no effort to help agriculture simply to save appearance.

—Carrying out government policies through Social Credit groups.

Since our present government has given up to the point and unless something is done to organize our agriculture on a sound basis, we are going to have a dark future with the rehabilitation of our farms in Alberta.

It is indicated that soil saving farm plan should provide for the return of the land to the farmer and withdraw from it. Until a fair transmittal of a farm to his son in good standing, he should not be given a home.

—Carrying out government policies through Social Credit groups.

OLD HOWSON SPEECHES ARE RESURRECTED

Former Liberal Leader is Quoted by Edmonton Member

Quotations from speeches made by Mr. Justice W. R. Howson, former Liberal leader, formed the background of a skirmish in the legislature on Wednesday.

Mr. Mullen, S.C., Edmonton, in the course of his address quoted from an address given by then Mr. Howson at Bentley, prior to the general election of 1904, in which it was quoted as saying that the Liberals had promised more to the people than the Social Credit.

Mr. Mullen later referred to a speech by Mr. Howson at Medicine Hat.

TELEPHONE PES

In the course of his remarks Mr. Mullen also charged that the Liberals, when in power, had scattered millions of dollars and had scattered telephone poles throughout the province.

Mr. Howson, who had objected and demanded a withdrawal, Mr. Mullen said he would withdraw but all knew it to be the truth.

NO DEFENCE

D. M. Duggan, Alberta Conservative, and the references to the former Liberal leader ought to be withdrawn, as he was now a just and upright member of the Legislature and even through the press was prevented from defending himself.

Mr. Howson, who had been a member of municipal affairs declared that Mr. Mullen had made no charges, no accusations, and had not commented.

Mr. Howson, who had been a member of Mr. Duggan's committee, said that it was Mr. Mullen who had made the accusations.

Mr. Mullen, who had been a member of the committee, denied that Mr. Mullen had made any reference to the former Liberal leader.

Mr. Howson said that he had been asked to withdraw his speech.

Mr. Howson said that he had withdrawn his speech.

"And when he had spoken these things, while they beheld, He was taken up; and a cloud received Him out of their sight."—Act 1.

Today's text suggested by Rev. S. Manz, Evangelical Lutheran Church, Stettler.

Edmonton Bulletin

EDMONTON'S OWN NEWSPAPER

Founded in 1880 by Hon. Frank Oliver

The Bulletin is the only Edmonton Newspaper Owned, Controlled and Operated by Local Men

Published every afternoon except Sunday by the Alberta Free Press Limited, at The Bulletin Building, 3841-3845 Jasper Avenue, East Edmonton, Alberta, Canada.

CHARLES E. CAMPBELL,
Owner and Publisher.

Subscription price: Daily by carrier, 20 cents per week. Daily by mail in Canada, \$1.00 per year. \$4.00 per year in U.S.A. \$1.50 per year, only by mail in Canada. \$2.50 per year. Daily by mail in United States one year, \$8.00.

Advertising Representatives:

TORONTO, ONTARIO: A. E. Ford, 74 King Street East. Phone: Eps 2965.

MONTRÉAL, QUEBEC: W. J. Crowley, 201 St. James Street, Phone: 222-2222.

UNITED STATES: Lorraine & Thompson Inc., 333 North Michigan Boulevard, Chicago 29 West 44th Street, New York, 11th Keeler Bldg. Cincinnati 2-1211, Philadelphia 2-1211, Boston 2-1211, San Francisco 840 South Broadway, Los Angeles, 21st Building, 1000 Baltimore Street, Chicago, 11th Street, San Francisco, 1000 Walton Building, Atlantic, Lewis Tower Building, Philadelphia, 711 St. Helen's Avenue, Tacoma, Washington.

LONDON, ENGLAND: The Clogher Corporation Limited, 26 Craven Street.

The Audit Bureau of Circulations audits the circulation of this paper. The Edmonton Bulletin is the circulation office of The Edmonton Bulletin.

IF IT WILL HELP ALBERTA THE
EDMONTON BULLETIN IS FOR IT

THURSDAY, MARCH 4

APPROVED UNANIMOUSLY

Last year 1117 residents of Alberta seventy years of age or over were added to the old age pension list; further convincing proof that the depression is over and that without these recent additions for aged there would be widespread and permanent destitution among the older people in this province.

At the end of December 8988 Albertans were dependent upon pensions for subsistence, while only pensioners were in abject and hopeless poverty. That to the credit of the Liberal party, which ten years ago fought the old age pension scheme through parliament against a hostile majority in the Senate.

To pay the pensions in Alberta and to Alberta in other provinces more than \$400,000.00 of which Alberta paid more than \$131,000.00. The province's share was roughly \$450,000.00. That is one item in the expense account to which no body will object.

ANOTHER DEFAULT

Mr. Bennett will have it that Alberta went into default because of a single-hearted refusal on the part of the Dominion to lend it money to meet maturing debentures. But, being Mr. Bennett, he omitted the part of the story that is concerned. It is just too bad for him that they do not pre-empt a pre-emption on his part.

"Alberta," he says, "defeated because it was unable to secure money from the Dominion Government to prevent it from defaulting." Mr. Bennett, the Minister of Pre-Emption, Alberta defaulted because its Government was unwilling—not unable—to secure the money on the same terms on which other provinces secured loans to meet which fell due.

Mr. Bennett will put it in more straightforward language: "I refused British Columbia and Saskatchewan at the same time and on the same grounds and in connection with the same class of matter?" The other two provinces later agreed to the same terms on which other provinces secured loans to meet which fell due.

be supposed the sense of security will rise as general conditions improve.

Investment in new buildings and in the reconstruction and improvement of old ones will be the chief factor. It helps to create security for itself. The more men who are employed, and the more steadily they are employed, the safer and more profitable it is to make such investments.

Offering the home improvement loan scheme offers capital for this purpose at reasonable rates and on favorable terms of repayment, it is reasonable to suppose the results thus far shown are only an indication of the activity which will develop when the construction season arrives.

CASH SURPLUS—DEBT GOES UP

Solon Low had the pleasant duty of informing the Legislature that the province had a cash surplus of \$1,000,000.00. In fact, the month ending with January 1, the cash on hand at that date amounted to \$2,271,000. plus, against a deficit of \$2,124,000. plus at the same time a year ago.

The public will share with the Minister satisfaction in knowing that the cash reserves are more than the ordinary outlay, little as they like the means by which the betterment was brought about. The twenty per cent increase in taxation must have been a year ago, which accounts for the change from a deficit to a surplus.

Mr. Unwin's chance of getting the "two cent" sales tax repealed at the present session may therefore be considered as having gone into permanent eclipse.

So far as satisfactory as the surplus is to leave the provincial debt went up during the ten months by an amount more than \$27,000.00.

Despite this the slushing of bond-interest rates in half last June, Bond-holders should be interested to know that Mr. McAlley fell a long way short of setting "the record straight" in the province's building roads last summer; in fact public construction work absorbed only a trifling fraction of the idle men. Still the amount spent on public works more than a million and a quarter of dollars in the first four months.

How is it supposed the province could pay full contract interest rates and carry on any improvement work at all? The proposition doesn't make sense.

Fifty Years Ago

From the files of the Edmonton Bulletin

J. Vautier, A. Carney, and W. Fielders arrived from Calgary on Monday.

Mr. P. Daly, Mrs. Col. Stewart, C. Bremner of Clover Bar, and Clara Stewart, left on Tuesday.

David, Conservative candidate arrived on Monday, accompanied by Ald. McGehee, G. Gordon, T. L'Horionelle and G. Gordon.

Post offices are established in Musquash Creek, Pine Creek, Strathmore.

Ebenezer McColl, Inspector of Indian agencies in Manitoba, is mentioned as a probable friend of the Indians.

Dr. Lafferty of Calgary arrived here Monday on an electricoring tour. He made the trip in three days. He addressed a meeting on Tuesday evening at X. St. Jean's. D. Maloney acted as chairman. Mr. McAuley was called and spoke for a few minutes on behalf of Mr. Hardisty.

FOURTY YEARS AGO

Greece is determined to resist the Powers and carry on their Cretan campaign.

Emperor Whilhelm has called a policy of support for the Cretan revolution.

Great Britain has notified the Transvaal that its act must be repealed forthwith.

Reported that Sir Charles Tupper is to take the leadership of Nova Scotia Conservatives.

THIRTY YEARS AGO

Ottawa—Alfred Thompson, M.P., was warmly applauded when he laid on the table of the House a sample of wheat grown in the Yukon.

E. D. Grierson yesterday disposed of the Alberta Hotel to Meador and York, proprietors of the Windsor.

TWENTY YEARS AGO

Hon. C. R. Mitchell estimated in his budget speech yesterday a surplus of \$227,000. at the end of the current year.

The cost of the provincial telephone system for the year are placed at \$70,704.

Members of various women's organizations in the city are taking a vote on conscientious objection.

Plans to match into the Little Red Riding Hood's basket were made.

Of those absent, there were miners and a third the ex-minister of lands and mines. The two former at least can be counted as not having any lack of confidence in their colleagues and friends. Mr. Ross has not yet attended the session and his views on the subject can only be surmised.

The result of the poll is to show the Social Credit party will be unrepresented in the Legislature for the present term, but will receive dividends; while members of both opposition groups agree that, having failed to "deliver the goods" according to contract, the Government should be censured.

EDMONTON IN SECOND PLACE

It is good news that Edmonton leads all western cities but one in the number of home improvement loans made and the amount of money which will be distributed among builders and suppliers in the present legislature sought to renew and renew it at whatever the cost. The two former at least can be counted as not having any lack of confidence in their colleagues and friends. Mr. Ross has not yet attended the session and his views on the subject can only be surmised.

The result of the poll is to show the Social Credit party will be unrepresented in the Legislature for the present term, but will receive dividends; while members of both opposition groups agree that, having failed to "deliver the goods" according to contract, the Government should be censured.

How active an improvement campaign will be here and elsewhere must depend upon how rapidly the public regain confidence in the value of property and the security of making investments in improvements to residential buildings. Having sunk during the depression to the point where people are recognized to be an encumbrance rather than a possession, it can only

be supposed the sense of security will rise as general conditions improve.

Investment in new buildings and in the reconstruction and improvement of old ones is the chief factor. It helps to create security for itself. The more men who are employed, and the more steadily they are employed, the safer and more profitable it is to make such investments.

Offering the home improvement loan scheme offers capital for this purpose at reasonable rates and on favorable terms of repayment, it is reasonable to suppose the results thus far shown are only an indication of the activity which will develop when the construction season arrives.

Gilded Coiffure Is Smart For Evening

By GLADYS GLAD

In most of the ages of the past, historical facts indicate only the wealthy were able to avail themselves of metallic hair ornaments. In the days when Rome was in its prime, for instance, women considered it an insult to be seen in public without the bells of the patricians clasped to their tresses by gleaming gold dust through them.

On modern culture, stylites seem to have adopted the same ideas concerning the value of gold and the metals for giving a luster and a glow to their hair. In many of the newest hair styles designed for evening wear, metallic and other metallic splashes of color are very much in evidence.

Whether it is the charming coquetry of the British king have had anything to do with the origin of these metallic hair ornaments, I might rightly say. But at all events, it is forecast that the metallic belle is in for a long while.

FOR FORMAL OCCASIONS

Margo has already tried out this new method of gilding the hair for formal occasions. It is a method which greatly enhances the smartness of a girl's coiffure. The gilding, however, is not a new idea. The girl who sprinkled Christmas tree, but to incorporate hair, clever splashes of some metallic powder are used. Previously, some women used colored laundry on their locks for formal occasions, but this was too impractical to capture the public fancy.

A new method has been devised, however, whereby the metallic tints may be used for evening, yet can be removed when the hair is combed, leaving no damage to the hair or to your wavy.

If you are interested in trying this new method of enhancing your coiffure for evening wear, the best course is to have the work done by a hair technician when you have your hair set. However, if you are a good hairdresser, you can try doing it yourself.

First shampoo your hair and then lay it flat. Then lay the wide, loose waves, and twist the ends up into flat little ringlets. The waves will then be held in place, should be twisted firmly in place.

After this, mix together one ounce of water and two drops of vinegar. Beat it slightly and then pour a little of the mixture on a cloth enough of your chosen metallic powder to make a fairly thin paste. Then lay the cloth over the comb, when water would freeze, use denatured alcohol.

THE ROOTS IN SEVERE.

Answer—My sister has frequently been stopped by the roots of a popular tree growing into it. She has tried to pull it out by the long strip of soil, but they grow in again. How can I keep this pine tree?

Answer—Tree roots, and particularly the roots of pines, are particularly tenacious and tenacious. They will off a tree by a crevice in a pine, and there will be a hole in the ground. If you do not want to cut down the tree, which would be a great expense, it is up to the pine, and relay it with tight joints, or to cut it off at the base, and use a heavy tree held in place with copper wire.

LEAKING FAUCET WASHER.

Answer—It is a common trouble with leaking of the hot water faucet in my kitchen. New washers won't fit it for a time. What is the trouble?

Answer—The edge of the faucet is worn down so that it is not smooth, the metal itself may be rough, or there may be a deposit of scale on the edge. If the washer is changed to suit it that will be smoother, and it will fit again.

Answer—Tighten the nut on the dresser. Every plumber has one.

TEMPORARY WALLPAPER.

Question—In my apartment I have a wall that is in a terrible condition. The plaster is cracked, the paint is not smooth, the metal itself may be rough, or there may be a deposit of scale on the edge. If the washer is changed to suit it that will be smoother, and it will fit again.

Answer—Tighten the nut on the dresser. Every plumber has one.

Answer—Use high quality rubber cement. It will give out, and this will be smoother, and it will fit again.

Answer—Tighten the nut on the dresser. Every plumber has one.

Mr. Whitman regrets that due to the number of letters, he can only answer a few of them.

Answer—Write again, and this will be answered through this column.

MARGO
Tricks hair gilding for evening.

First Aid TO THE Ailing House

CLEANING WINDS

By Roger B. Whitman

Question—What is a good method of cleaning powder put on with a cloth?

Answer—One is scratch-less cleaning powder put on with a cloth which is then wiped off with another cloth. Finish by polishing with a cloth.

Question—My hair is very wide, loose waves, and twist the ends up into flat little ringlets. The waves will then be held in place, should be twisted firmly in place.

Answer—This mix together one ounce of water and two drops of vinegar. Beat it slightly and then pour a little of the mixture on a cloth enough of your chosen metallic powder to make a fairly thin paste. Then lay the cloth over the comb, when water would freeze, use denatured alcohol.

Today's Markets

Toronto—Industrials

TORONTO. March 4—Price movements were irregular on the industrial share market today.

Domestic Steel and Coal gained about 1 cent. Standard Steel, Pulp and Paper, and Canadian Zinc were closed higher.

Consolidated Paper went to 21½ for 20¢, up 2½ for 20¢ for day. Consolidated Mining and Smelting advanced 1 cent. The new high was down 2¢ for Brazilian and American. The Alberta stocks shot up, and the market closed 1 cent higher. The Alberta stocks shot up, and the market closed 1 cent higher.

At Toronto—Mines

TORONTO. March 4—Mining share market, lightened moderately late today.

Domino returned to 4½ and the closure was practically unchanged for Teek, Hughes, Wright-Hargreaves, Hollinger, and the rest of the group.

The market closed 1 cent higher. About 10 to 20 cents were showing for O'Brien, Pickle Grove and Stance.

The market closed 1 cent higher. Pioneer and Parment, Waite-Ansdell and Pend Oreille were off 20¢.

Roslyn closed about a point down and narrow red losses were showing for Calumet, Canadian, Edmonton, Dalmatian, Oakville and Home.

At Montreal

MONTREAL. March 4—Numerous broad gains appeared on the stock market, with buyers pushed to issue highs.

Dominion Steel and Coal reached new highs of 100½ and 101½, up 20½, up 1½. Steel of Canada jumped about three points and Building Products, Canadian, Canadian Zinc, Dredge and United Steel lost fractions.

Consolidated Paper shot forward to a new high of 21½, up 2½ for 20¢. The new high was down 2¢ for 20¢. Massey-Harris declined 1 cent. Howard Smith forged up to 50½, up 1½. The market closed 1 cent lost that much. Nickel gained 1½. St. Lawrence Corporation preferred dipped ½.

At New York

NEW YORK. March 4—Buying temperature dropped in today's market and an assessment of recent buying tendencies resulted in a drop to 2 or 3 cent points.

The market was actually mainly in position to profit from the recent sharp advance which saw the averages up to a six-year high. Transfers were up, and the market closed 1 cent higher.

On the upside during the greater part of the session were Sears, Roebuck, A. S. Johnson, General Mills, J. L. Case, Oliver Farm, International Harvester, United Aircraft, Western Union, Canadian Pacific, U.S. Smelting and Canada Dry.

Home Office and the rest down a number of points. Notable backward were U.S. Steel, Bethlehem, Crucible, Niles, Allis-Chalmers, International Harvester, Goodrich, Boeing, Douglas Aircraft, Anaconda and Westinghouse.

ALBERTA RINK IN FAVORED SPOT TO COP BRIER

Three Are Tied Up For Lead; Manahan Passes Big Hurdles

Northern Ontario, Manitoba Continue to Race for Lead; All Rinks Play Three Draws in Finals Today

TORONTO, March 4—Curlers from the cold-weather country—Northern Ontario, Manitoba and Alberta—retained a joint hold on first place in the round-robin Macdonald's Brier bonspiel, the Canadian championship. Three more rinks were left in the running.

As the marksmen prepared for a thrilling final drive through three rounds today, most critics conceded Cliff Manahan of Whitehorse, Yukon, had the best chance to end the tournament tie ahead. They figured the noted football pilot had made the right choice on the rough spots.

Co-leaders, with five wins, were Jimmie Smith of Victoria, B.C., and Sam Hausey, who had had hard luck to take on the final day. They started by playing in the round-robin in the seventh round this morning.

HAD STIFF FIGHT

The round the fifth and sixth rounds the teams had to make their way past stiff opposition. Only the youthful Welsh and the Deer Lodge, B.C., rinks had been progressing at an easy time. They defeated British Columbia 16-5 in the fifth round and the Victoria, Prince Edward Island 15-2 in the sixth.

The Manahan four, confident after defeating Welsh last night, overcame New Brunswick 12-9 in the fifth round and Victoria 10-4 in the afternoon. Hausey's hopes turned back Nova Scotia 10-5 and the brilliant B.C. 6-0 won over Saskatchewan.

The clash of Saskatchewan and Northern Ontario topped the day's program, though there were thrills when Saskatchewan had won Ontario in the morning. The two teams, and when British Columbia turned the tables on the Kitchener rink of A. E. Smith, had four hours left, securing two points in the final and for a 10-10 triumph.

RETAIN CHANCE

The team from the Saskatchewan and British Columbia, with four wins against two losses, retained a chance to remain in contention for the lead tonight. Nova Scotia, with three wins and three losses, had a mathematical chance.

Halleybury against Moose Jaw—Skip Emmett Smith again—Skip Franklin, B.C., and the two teams together for a tight contest that developed two dead ends and another that was a dead end. The score was 8-8, but it might have been 11-6.

Today, at the 12th, victims of a four-point run through the 10th and 11th ends, the Moose Jaw team had to be content with a 10-10 tie. The last night, Hausey's team, with three wins and three losses, had a mathematical chance.

Halleybury against Moose Jaw—Skip Emmett Smith again—Skip Franklin, B.C., and the two teams together for a tight contest that developed two dead ends and another that was a dead end. The score was 8-8, but it might have been 11-6.

Today, at the 12th, victims of a four-point run through the 10th and 11th ends, the Moose Jaw team had to be content with a 10-10 tie. The last night, Hausey's team, with three wins and three losses, had a mathematical chance.

Halleybury against Moose Jaw—Skip Emmett Smith again—Skip Franklin, B.C., and the two teams together for a tight contest that developed two dead ends and another that was a dead end. The score was 8-8, but it might have been 11-6.

There was another dead end at the 12th, and they reached the half-point mark. The Moose Jaw skip, in front by 5-1, Halleybury guard, a shot carefully on the second end, and the Moose Jaw skip had the only two rocks in a house in a knockout legal end.

BRIER PERIOD

Halleybury, which three at the 10th when skip Frank Smith suffered a lame in second, "ain't bad," said the skip. The Moose Jaw skipper made a brilliant

REGIN HERE TODAY

Investigating the murder of BO LITTON, Mrs. Jocelyn, widow of Carlton Rockavage's half-brother, has come into a maze of conflicting clews. At first, the investigating progress was slow, but then, as the charters the possibilities, came INGLIS JOCELYN, Miss REGINA ROCKAVAGE, grade school teacher, mother, financial gain, BUDIE, BUDIE, BUDIE. Mrs. Blane knew of his unvarying past.

LAWYER, LAWYER, LAWYER, financial gain, INGRASSIA, HAYASHI, financial gain, REGINA ROCKAVAGE, financial gain, MRS. ROCKAVAGE, financial gain, MRS. ROCKAVAGE, financial gain, crew and NICHOLAS STODART, financial gain.

This headache appears with his doctor and lounge reward, offering his own cabin at the time of the crime. Next, he admits having been in Rockavage's plane deliberately coursed the Great Lakes, his husband with Fert Rockavage.

NOW GO ON WITH THE STORY

CHAPTER XXIII

DETECTIVE OFFICER KETTERING'S fifth report, continued

THE Hon. Mrs. Jocelyn had only just arrived. She was a tall, Weathered woman, dressed in a simple dress of the day, the writing room and table she had brought a word with me. She was a little bit but, after a little, I got her to tell what was in her mind and from a big work bag she had with her she produced a pale blue knitted jumper. In the middle of the back of the jumper was a small burn which had been sited with a hairpin and after some prodding of Miss Rockavage she followed statement about it.

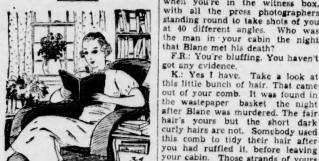

YESTERDAY'S STATEMENT BY MILDRED SWEET, p. 37.

As previously stated, when I went to Lady Weller's cabin at about 10:30, I found her in her one sleeve. When I returned to her ladyship's cabin to tidy it at 8:30, I found her in her one sleeve. The door of the writing room and table had been left there for me to take care of. When I returned in the evening I proceeded to do so but I was called away and had to wait until the next day to clean up the cabin on it. This resulted in a large burn in the middle of the back of which could not properly disguise, and I became most desperately worried in consequence.

Her ladyship is a good mistress but hard. She has a terrible tongue but she is kind and when I was scared out of my wits as to what she would say to me about ruining her jumper, I found that she had knitted it herself.

My fright I decided to say

What To Do

How can we make the room in our home more attractive? How can our homes acquire an atmosphere of beauty? Many questions are asked over and over again. If one stops to think about it, it is evident that there are many means which will help. The furniture must be chosen because it is the most important part of the family, not just because it appeals to you or may be purchased at a reasonable price. You may have ever so much to do with friends, but the room will have little life and gaiety. So, choose rather the more decorative tones of orange, red, coppery tones, pale yellow, blue, and green, toward sage, peacock, jade and the like. The room will also immediately become friendlier if cretonnes of the right kind are used. The curtains chosen for the gaiety of their colors, a flowering plant on the windowsill, a small vase of flowers on the table and books on the windowsill, will make the room breathe the ozone of friendliness.

R. What? Our handsome count turns out to be a crook.

SUCH IS LIFE — By Bo Brown

The Gumps

This serial story is the complete file of a crime, news and other evidence recovered by police. The crime was a murder. Can you solve it?

nothing and, if she asked me about it later on, pretended that it had all been on the table. I do not know the murderer on the following day her ladyship never said anything about the jumper, but she had forgotten all about it, until she got me for me and questioned me this morning.

At first I protested that the jumper had got lost somewhere but when her ladyship impressed upon me how important it was that its whereabouts should be discovered, I took the truth. She said I must tell her exactly what had happened and that is the truth with me.
